Profile

Motivated computer science graduate eager to contribute fresh ideas, strong problem-solving skills, and a quick learning mindset to help companies build efficient software solutions. I aim to add value by adapting to new technologies, collaborating effectively with teams.

INTERNSHIPS

11/2025 – 2/2026
Bengaluru

AI Engineer Internship , Data mites

1. **Insurance Claim Prediction**

   - Built a Machine learning model to predict Insurance Claim Probability, improving risk assessment using historical policy data.
   - Performed Data Preprocessing, Feature Engineering and Evaluation in Python, Selecting the best model based on accuracy and ROC-AUC

2. **Forest Cover Prediction**

   - Developed a Machine learning Model to Predict Forest Cover Types using environmental and geographical data.
   - Applies Data Preprocessing , Feature Engineering and Model Evaluation in python to achieve optimal prediction accuracy

3. **Automobiles Imports Price Prediction**

   - Built a Machine learning model to predict car prices using vehicle specifications and market features
   - Performed EDA, feature Engineering , And Model Comparison in Python ,Selecting Gradient Boosting as the best model.

4. **Skin Disorder Prediction**

   - Developed a Machine Learning Model for early Prediction of Multiple Skin Disorders using clinical and Histopathological data.
   - Conductted EDA, Model Evaluation, and Comparison to recommend the most accurate model for healthcare decision support.

AI Project:

Event Intelligence RAG System:

• Developed an **Event Intelligence Retrieval-Augmented Generation (RAG) system** to analyze operational alarm and incident data using **SQLite, ChromaDB, and transformer embeddings**
.
• Enabled **natural language querying of emergency incidents (Fire, EMS, Civil Defence)** with semantic search and LLM-based contextual responses.

01/2025 – 06/2025 **AI Data Quality , Roman Technologies , Internship**

- Improving Data Accuracy in CRM using **AI**
- Data filters allow users to analysis CMR Data And charts within specific time ranges.
- Using libraries Pandas , NumPy , Techniques Data Deduplication ,Anomaly Detection, Predictive Data Filling, NLP

EDUCATION

12/2021 – 06/2025 **Bachelor of Engineering in CSE, AGM Rural College of Engineering** **8.6 CGPA**
Hubli

SKILLS

Technical skills

Python | AIML frameworks | Generative models |NLP | Cloud platforms | Deep learning principles |LLM | GIT | CI/CD | MLOps tools | Data Handling (Py Spark, Hadoop basics) | Data Preprocessing & Feature Engineering | Kubernetes | Oracle | Docker | SQL/NOSQL| Vector Database | Model Deployment & Training | Data Analysis & Visualization |Rag |AI agent.

Architecture & Concepts

Open System & Architecture | Python Interpreter
AI/ML Pipeline

Soft Skills

Leadership | Teamwork | Adaptability| Collaborative Leadership.

CERTIFICATIONS

Artificial-Intelligence-Engineer (AIE)
1st Price in CMP IT innovation 2k-22 Competition
Certificate of Training in AI Data Quality Analyst
Microsoft Fundamentals of Azure
AI Solutions
Certified Data Scientist
Completion of Data analysis with Python
Certificate of Skill Competency
Design Power BI
Data Science Foundation -IABAC
Artificial Intelligence Expert-IABAC

PROJECTS

AI Assistance for visually impaired App

- Designed and built a **AI assistance Application** using Flutter for real time object detection.
- Technologies : YOLO, Open CV, Detectron2, Google Media pipe, TensorFlow Lite, Python , Py torch , COCO

My Role : Developed and integrated AI modules for object detection, speech processing, and navigation in an Android-based assistant for visually impaired individuals

Android and Web Development

Developed a android application with **user authentication using XML CSS,HTML and UI path**

Languages

- English
- Kannada
- Telugu
- Hindi

Conclusion

As an aspiring AI Engineer and Data Analyst, I am committed to applying my technical knowledge, analytical thinking, and problem-solving skills to real-world challenges. I seek an opportunity to contribute to impactful projects while developing my expertise in data-driven technologies.
